

# Moroccan Journal of Agricultural Sciences

## Table of contents

### Crop Production and Environment

Chickpea genetic improvement in Morocco: State of the art, progress and prospects <i>Chafika HOUASLI, Omar IDRISSI, Nasserelhaq NSARELLAH</i> .....	5
Lentil genetic improvement in Morocco: State of art of the program, major achievements and perspectives <i>Omar IDRISSI, Chafika HOUASLI, Ali AMAMOU, Nasserelhaq NSARELLAH</i> .....	9
Application of extended photoperiod in lentil: Towards accelerated genetic gain in breeding for rapid improved variety development <i>Omar IDRISSI</i> .....	14
Agro-morphological and quality attributes of Moroccan carob <i>Ghizlane SALIH, Abderrazek JILAL</i> .....	20
Sustainable intensive cropping to reduce irrigation-induced erosion: Changing cropping sequence under sprinkler irrigation practice <i>Samih OUDA, Abd El-Hafeez ZOHRY, Shrief ABDEL-WAHAB</i> .....	26

### Animal Production and Health

A retrospective study on frequency of tumors in dogs at the Veterinary Teaching Hospital in Rabat (Morocco) <i>Soraya NOURY, Noursaid TLIGUI, Rahma AZRIB</i> .....	34
--	----

### Natural Resources and Forestry

Riparian and stream forests carbon sequestration in the context of high anthropogenic disturbance in Togo <i>Fousseni FOLEGA, Badabate DIWEDIGA, Reginald T. GUUROH, Kperkouma WALA, Koffi AKPAGANA</i> ....	39
<i>In vitro</i> ruminal fermentation, nutritional evaluation and antioxidant activity of some forest shrubs of North West Tunisia for goats <i>Houcine SELMI, A. DHIFALLAH, S. JEDIDI, N. BRAHMI, H. ROUISSI</i> .....	50

### Crop Protection

Fig tree viruses in Morocco <i>Mohamed AFECHTAL</i> .....	54
Preliminary evaluation of the status of olive-infecting viruses in Morocco <i>Mohamed AFECHTAL, Majid MOUNIR</i> .....	59
